Scaling open source projects

- Progress takes time

- Start with one problem & one user

- Be consistent

- Engage & promote

- Get help & feedbacks

Monetizing open source projects

1. Sponsorships and donations ↗️

2. Self-hosted instances

3. Educating users

4. Paid features

5. Investors

Open source developer tools

- Open source under the hood

- Solve an individual problem

- Build an enterprise solution

- Monetize

- Scale
